WASTEWATER

SEPTIC CLEAN

**HIGH PERFORMANCE
WASTEWATER SYSTEM REJUVENATOR!**

Contains FAST acting, good bacteria!

Septic Clean contains high concentrations of powerful beneficial bacteria for use in waste water systems (septics and treatment systems) to digest organic matter.

Once introduced into the system the bacteria will keep multiplying and keep working to keep your tank and trenches clean of sludge!

- Eliminates odours (black water and grey water)
- Reduces blockages & sludge
- Rejuvenates overworked or starved systems
- Repairs bacterial levels in systems that have had chemical, climatic or medical product damage.
- Cleans drains and greasetraps
- Suitable for **Composting Toilets** and longdrops

Dosage Information available for:

- * **Shock Treatment**
- * **Problematic Systems**
- * **Maintenance Dosages**

System maintenance can be helped with the use of non-chemical cleaners such as **Septic Science Bio Spray Cleaner**.

Available in:		
250gm	3 months	\$50.00
500gm	6 months	\$90.00
1kg	12 months	\$160.00
2kg	Commercial	\$290.00
5kg	Commercial	\$660.00
10kg	Commercial	\$1250.00

RV & MARINE WASTEWATER TREATMENT

**The safer, more
effective way to handle
RV & Marine Wastewater**

**Perfect for RV and Marine
Flushing or Composting Toilets and
Greywater Holding Tanks**

RV & Marine Wastewater Treatment
Containing 1 billion bacteria per gram.

The specifically selected blend of bacteria produce multiple enzymes that work quickly to digest organic matter, out-competing the nasty odour producing species normally present, thereby eliminating the cause of the odours before they have a chance to take hold.

**Cartridge can be safely emptied into
a standard septic system!**

With no harsh chemicals
**RV & Marine Wastewater
Treatment** is much
safer to handle and will
also cause no harm to
the environment or you!

500ml Spray \$40.00
2.5L Bulk \$170.00*
(*With 1 free spray bottle)

Best used with **Septic Science
RV & Marine Wastewater
Cleaner & Conditioner*** to
achieve optimum results!

***A substitute Flush for urination.
Save on water!**

Use with **Septic Science
Bio Spray** for everyday cleaning

Available in:		
250gm	12.5 Doses	\$50.00
500gm	25 Doses	\$90.00
1kg	50 Doses	\$160.00

WARNING
Do not use any other
chemical cleaners,
fragrances or
disinfectants.

SEPTIC SCIENCE
Good Bacteria At Work

Prices correct at 01/07/2026

POND CLEAN

OXYGENATED!

100gm bag treats 200Lt

100gm bag treats 10,000Lt

Small Pond:

4x100gm	\$45.00
10x100gm	\$90.00
20x100gm	\$145.00
40x100gm	\$240.00

Large Pond:

4x100gm	\$90.00
10x100gm	\$195.00
20x100gm	\$370.00
40x100gm	\$710.00

Pond Clean contains natural, beneficial bacteria for use in cleaning and maintaining ponds. The safe and friendly bacteria eats away any decaying organic matter, suspended solids and sludge. As the water cleans it reduces the excess nutrient content naturally starving the algae, leaving the water condition perfect for decorative and commercial ponds containing fish.

By using **Pond Clean** regularly, the bacterial activity needed to rejuvenate the pond's performance will increase, until the water is clear and sub-surface sludge and any algae blooms have disappeared.

Benefits:

- Reduce sludge volume & suspended solids
- Out-competes the algae for a slow die-off
- Makes water clean and safe for fish & plants
- Cost effective pond remediation.

**Starves
algae &
most
floating
weeds!**

DAM CLEAN

OXYGENATED!

1/4 Megalitre Dam	4 Bags	\$195.00
1/2 Megalitre Dam	8 Bags	\$370.00
1 Megalitre Dam	16 Bags	\$710.00
2 Megalitre Dam	32 Bags	\$1380.00
3.5 Megalitre Dam	56 Bags	\$2250.00
5 Megalitre Dam	80 Bags	\$2900.00

Dam Clean contains high concentrations of powerful beneficial bacteria for use in cleaning and maintaining dams. This good bacteria eats away any suspended solids, sludge and decaying organic matter including manure. As nutrient levels decrease, algae will die back and sink to the bottom to be slowly consumed by the bacteria creating a natural cleaning cycle, leaving the water condition suitable for stock watering and irrigation. The more slowly the cleaning cycle occurs, the longer the effects will last. Some dams may take multiple dosing cycles to clean depending on the severity of sludge and algae accumulation.

Dam Clean has proved to be the most cost effective and ecological solution for dam remediation. It comes in 250g water soluble bags that dilute easily and safely when in contact with water. Perfect for lined dams.

TROUGH CLEAN

OXYGENATED!

100gm bag treats 200Lt

250gm bag treats 500Lt

Small Trough:

4x100gm	\$45.00
10x100gm	\$90.00
20x100gm	\$145.00
40x100gm	\$240.00

Large Trough:

4x250gm	\$90.00
8x250gm	\$145.00
16x250gm	\$240.00
32x250gm	\$440.00

Trough Clean is a simple, economic and environmental alternative to cleaning troughs, without chemicals that may harm thirsty livestock. Designed to biologically reduce sludge and control odour, making water clean and drinkable.

Trough Clean uses selected bacillus bacteria to digest organic waste. Each strain produces multiple enzymes resulting in an extremely powerful and effective biological treatment.

Benefits:

- Reduce algae.
- Reduce sludge volume & suspended solids.
- Control odour.
- Makes water clean and drinkable
- No need to empty the trough to clean!
- No harm to plastic or concrete troughs

Kills algae AND cleans bottom sludge!

**No more
Scrubbing
Troughs!**

CLEANING

BIO SPRAY MULTIPURPOSE SPRAY CLEANER

A general all-purpose spray cleaner. Perfect for cleaning glass, mirrors, floors, showers, bathrooms, toilets, ovens, BBQ's, kitchen benchtops and stainless steel appliances.

This is an everyday cleaner you can use at home or work. It replaces most cleaners on the market and contains no harsh cleaning chemicals!

Key benefits

- Chemical free
- Mild lemon fragrance
- Safe for septic
- Shines glass & stainless steel
- Keeps working after application
- Biodegradable and sustainable
- Reduces pipe blockages
- Safe for all plumbing types
- Mix double or triple strength for maximum cleaning effect

The **Bio Spray** cultured bacteria decompose organic matter such as food, fats and greases, urine, blood, soap scum, and mould by creating digestive enzymes that help bio-degrade complex compounds.

UV Clean is unlike any other cleaner on the market!

Removes stains & odours caused by:

- Animal & human urine and sweat
- Vomit, blood, faeces, bodily fluids
- Tea, coffee, milk, orange juice, cordial, soft drink

Ideal for use on:

- Carpets, underlay, mattresses, curtains, fabrics
- Concrete, brick, wood
- Furniture, walls, wood & tile floors & grout
- Synthetic grass, outdoor carpet
- Composting toilets & urinals

UV Clean contains billions of friendly bacteria, scientifically proven to break down organic matter into simple chemical compounds found naturally in the environment. Mild fragrance.

WARNING

Do not spray on skin or
pets. Immunocompromised
people should avoid direct
contact with UV Clean
